

## Mission Statement for the MCFN Group of Companies Corporation

The Mikisew Group of Companies Corporation was established to create wealth for the First Nation and employment and training opportunities for the citizens, and to build individual and collective capacity. Although the Group of Companies focus in the past was on the oil and gas sector, it continues to diversify into other business sectors.

The mission of the Corporation is to build companies that are recognized nationally as being reputable, strong, proud and prosperous. It does this by investing in a skilled and qualified workforce, built on a solid foundation of Board and management expertise and good communications.

*Statement approved by MCFN Chief & Council, March 2013*
